About IconSWM - ISWMAW:

Sustainable waste management, sanitation and resources conservation are fundamental goals of the United Nations, articulated in SDG 2030, which has direct bearing on the quality of life for all, but more especially communities in cities. IconSWM is one of the biggest and popular conference platform of ISWMAW established in 2009 in India working for the betterment of WM & environment protection promoting 3R and circular economy concepts with the involvement and participation of more than 40 countries and most of the states in India. 8th IconSWM 2018 will deliberate on various issues related to innovation and implementation in solid and liquid waste management including policies & strategies, segregation, collection, transportation, biological and thermal and mechanical treatment technologies, LCA, climate change, circular economy, research, business opportunities etc. Nearly 900 delegates from 30 countries are expected to participate in the conference and the exhibition in 8th IconSWM, Problem of waste management primarily lies in poor segregation and governance. IconSWM – ISWMAW involves in creating awareness, mobilising best and environmentally sound practices, supporting research and implementation activities. IconSWM – ISWMAW research and other activities includes the significant International Collaborative Research Project, "Global status of implementation of Circular Economy" with experts from 31 countries including UNCRD; Research Projects at IISc, Bangalore, Jadavpur University, and other organisations in West Bengal and Karnataka. 8th IconSWM 2018 has been declared the official side event of the high level Intergovernmental 9th Regional 3R Forum in Asia and the Pacific, to be held in 2019 at Bangkok, Thailand by the Government of Thailand, Ministry of Environment, Japan, and UNCRD.
